

Hundredth Day Activity

First Grade

The hundredth day of school is coming. We are planning a celebration and this homework assignment is in preparation for the 100th day of school.

Here's what to do:

- Brainstorm about things you and your family could easily collect in quantities of 100.
- Choose something from your list and gather 100 of that item. It may be from a collection you already have or a new collection.
- Design a unique way to display your collection. Please try to collect non-food items. Some examples: cards, stickers, bottle tops, buttons, popsicle sticks, paper clips, coins, erasers, rubber bands, pencils, shapes, cotton balls, crayons, etc.
- Be sure you have exactly 100 of your items. You might try sorting them in groups of ten.
- Make sure you can carry your collection to school by yourself.

Be creative! Collections are due in school no later than Thursday, January 30.

Thanks.

The First Grade Team of Teachers. 😊
